### Front & Back Automatic Label Applicator System

Standard front/back systems come complete with an 8-foot by 6-inch chain link conveyor, a powered top hold down, dual applicator head I/O mounts, a microprocessor controller hung from an articulator arm, guide rails, and a spacer wheel assembly. The conveyor height is fully adjustable between 32 and 39 inches and capable of handling products up to 6-inches wide. Each conveyor system includes heavy duty construction, robust locking casters, vertical, horizontal and swivel adjustments for applicator head mounting and a heavy duty 1-horsepower adjustable speed motor.

- Compatible with our ST600, ST1100, ST2100, and PA4000 automatic label applicators.
- Capable of running at speeds of up to 600, 1100, or 2100 linear inches per minute, respectively.
- Heavy duty construction specifically designed for industrial applications.
- Stainless steel and anodized aluminum provide protection from corrosive environments.
- Solid construction ensures even product handling resulting in extremely accurate label placement.
- Fully adjustable I/O mounts permit the applicator head to be oriented at any attitude for side, top or bottom label placement.
- Handles a wide assortment of product and label sizes.
