PLATINUM LABELERS

PRINT AND APPLY LABELERS

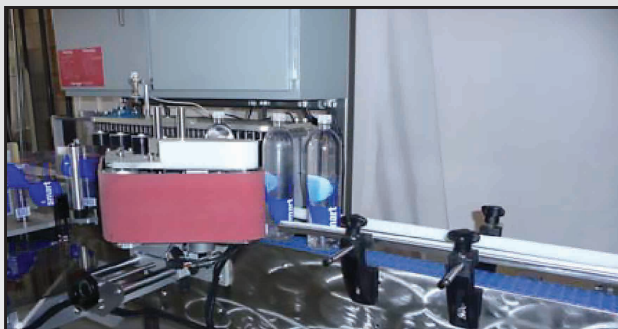

High quality text, graphics and bar codes, applied to nearly any product. Corner-wrap compliance labels to 14-inches long. Available to mount directly to case taping equipment.

- Pressure-sensitive labelers for nearly any application, including decorative, compliance and tamper-evident.
- Print and apply systems
- Weigh packaging automation systems.
- Product handling systems, indexers and conveyors.
- Orientation devices
- Automatic bag packaging machines.
- Custom designs and manufacturing.

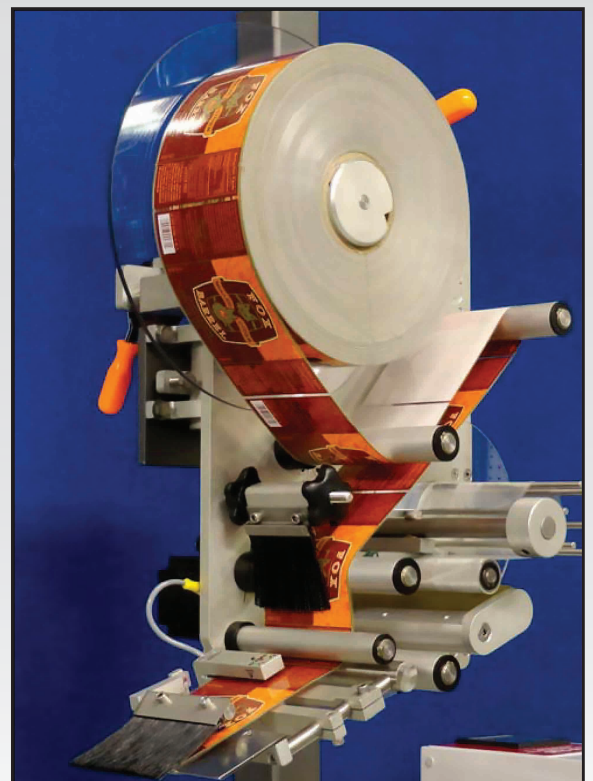

Concept's accurate speedmatching allows application of wrinkle-free labels. Highly reliable and very easy to setup and operate. Able to apply leading or trailing corner labels. Printer options include Sato, Zebra and others.

WATER BOTTLE LABELERS

High-speed water bottle labelers for application of crystal clear and paper pressure-sensitive labels at speeds exceeding 300bpm, without wrinkles or bubbles.

Labeling Systems and Integrated Packaging Solutions

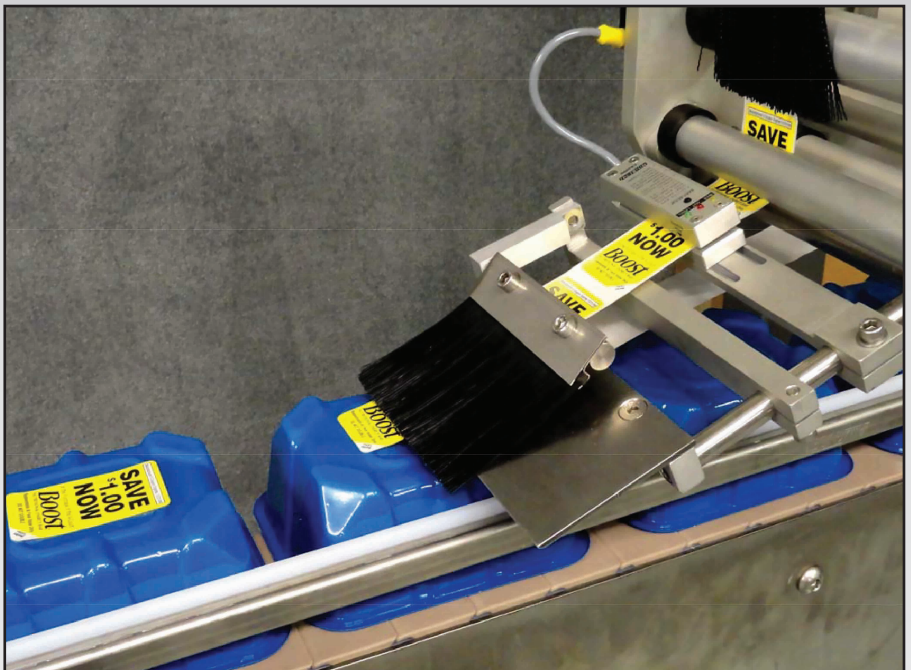

***Spend your time labeling,
not servicing labeling machines.***

What a Concept!

***No-tools vertical and horizontal
positioning with indicators and
position locks.***

***Tilt and Skew pivots make easy
work aligning to product shape***

- *For speed-matched application of pressure-sensitive labels to the top surface of products moving on a conveyor.*
- *Heavy-duty construction throughout; designed for continuous operation.*
- *Easiest to thread in the industry.*
- *Tubular steel frame construction, powder-coated silver for attractive appearance and durability.*
- *Unobstructed access from all around the machine for ease of threading, setup and adjusting.*
- *No-tool up/down and in/out adjusters with indicators assist in quick changeovers.*
- *Tilt and skew adjustments easily accommodate sloped conveyors and tapered package designs.*
- *Attractive use of durable CNC machined aluminum and stainless steel.*
- *All stainless steel fasteners.*
- *IP65 rated splash protection.*
- *Sealed ball bearings provide long life and resistance to damp environments.*
- *High-torque servomotor driven label feed with digital speed control capable of high speeds and accuracy.*
- *PLC controlled with operator touch screen is easy to understand and operate.*
