Concept C300PA-T

Standard Tee Stand with no-tool adjustments for standalone applications

- Configured for tamp application to sides or top (specify with order) of cartons moving on a conveyor.
- Tamp pad is configured for desired label size and easily changed if other label sizes are desired.
- Label head mounting position available for Landscape or Portrait label position. Landscape refers to label dispensing horizontally; Portrait labels dispense vertically.
- No-tool label head positioning on Tee stand with leveling feet and casters for standalone applications where used on customer's conveyor.
- Accepts label rolls to 14-inch OD on 3-inch cores.
- Powered rewind responds to dancer position.
- Available thermal-transfer with ribbon or direct-thermal.
- Sato S84ex industrial print engine prints at 305dpi resolution up to 14-inches per second.
- PLC Controlled with touch-screen Operator Interface
- For applications to 60 labels per minute (based on 4 x 4 label size)
- 208-230VAC, single phase, 10A (available 120VAC)
- 80-135 PSI air supply
